Community Health Needs Assessment
Your Feedback Will Help Your Community

The Healthcare Association of Hawaii (HAH) invites the public to participate in the Hawaii Community Feedback Survey. The purpose of the survey is to gain input from community stakeholders about their concerns regarding health and quality of life within their communities. Hospitals statewide will use the results to the Community Health Needs Assessment to shape community benefits programs for the coming years.

HAH is asking for participation through the following three ways:

1) complete the 10-minute survey,
2) forward this invitation to your board, committees, colleagues, email distribution lists, and relevant contacts, and
3) please include this request in your newsletters and email communications.

We seek community health workers, public health professionals, and community residents’ responses as part of a larger statewide community health needs assessment. The broader and greater the participation, the better.

We will use participant responses to analyze local opinions about the top health and related concerns in their communities. All responses are confidential.

You can find a link to the survey on the HAH.org home page.

The survey will close on Friday, December 21st.

For questions or additional information, please email jennifer@healthycities.org

ABOUT THE HEALTHCARE ASSOCIATION OF HAWAII (HAH)
Established in 1939, the Healthcare Association of Hawaii (HAH) is the unifying voice of Hawaii’s health care providers and an authoritative and respected leader in shaping Hawaii’s health care policy. HAH works with committed partners and stakeholders to establish a more equitable, sustainable health care system driven to improve quality, efficiency, and effectiveness for patients and communities. For more information, visit HAH.org or contact HAH at (808) 521-8961.
