

Lisa Hardesty, MA, CFI, CHSP, HEM

Principal Consultant

Ms. Lisa Hardesty is an experienced health care consultant with numerous years of experience in environment of care and life safety. Ms. Hardesty worked as the Environment of Care and Sustainability Manager at a Malcolm Baldrige National Quality Award winning hospital. During her tenure as safety officer, she was responsible for conducting performance improvement initiatives related to the physical environment. Ms. Hardesty was responsible for significant improvements including: Upgrading HVAC systems to better support air quality in the surgery department; renovating the pharmacy compounding area to meet USP 797 compliance; restructuring the medical equipment management plan to adopt an alternate equipment management (AEM) program.

Prior to her role at the hospital, Ms. Hardesty provided service-based consulting focused on environmental safety and compliance issues. She consulted for a national Fortune 100 company to build a health care compliance division. Ms. Hardesty also worked with numerous health systems to improve compliance by developing a standardized approach for conducting surveys, writing action plans, and establishing metrics for monitoring sustainability.
